

# Senso R

Liquid gum arabic combined with mannoprotein and grape tannin  
for stabilisation and harmonisation

## Product description

Senso R is a liquid combined product made up of gum arabic, grape tannin and mannoprotein. The special formula assists colloid and tartar stabilisation. Senso R balances out astringent polyphenols and adds more texture to wine. In the process Senso R preserves the wine's fruit character, which is required for complexity and length on the palate. Filtration is affected very little as a result of careful selection of raw materials.

Permitted according to EU Commission Regulation no. 934/2019. User must check compliance with national regulations. Laboratory tested for purity and quality.

## Dosage

Red wines: 100 - 300 mL/100 L wine  
White / rosé wines: 50 - 100 mL/100 L wine

Senso R is added a few hours before bottling. We recommend first dissolving Senso R in wine and adding it to the tank slowly, stirring constantly.

## Storage

Store in a cool place. Packs which have been opened should be tightly sealed and used up as soon as possible.
