

Product Specification Vitamon[®] Cerevisiae

Description: Vitamon[®] Cerevisiae is developed for optimal nutrient supply of the beer yeast and for increased fermentation speed

Composition: diammonium phosphate, vitamin B₁ (thiamine), essential minerals, zinc and yeast-stimulating factors from inactive yeasts.

Analysis:

Form	fine powder
Colour	beige
Odour	yeasty
Bulk weight	700 – 900 g/L
pH value (1% solution)	6 – 8

Values for information purposes:

Total nitrogen	14 – 17 %
Total heavy metals (calc. as Pb):	≤ 10 mg/kg
Lead:	≤ 5 mg/kg
Mercury:	≤ 1 mg/kg
Arsenic:	≤ 3 mg/kg
Total count	< 1000 cfu/g
Yeast / Mould	< 100 cfu/g
Coliforms	neg. in 10 g
Salmonella	not detectable in 25 g
