

Littofresh® Bright

Prevention of oxidation and bitterness

Product description

Littofresh® Bright is a natural alternative to PVPP, based on plant protein, yeast protein extract and silicates. It is suitable for the fining of must and wine. Its use has a preventive effect against oxidation and bitterness in white and rosé must. Littofresh® Bright removes oxidisable phenolic components and significantly preserves the freshness of the wines. It removes undesirable notes such as bitterness or green notes in unripe grapes, as well as slight off-flavours caused by microorganisms.

- Prevents browning of the must
- Preserves the aromatic freshness
- Eliminates astringency and bitterness
- Can be used in cross-flow filtration
- Made from organically produced and biodegradable raw materials
- Non-allergenic
- Can be used for vegan, organic and NOP winemaking

Littofresh® Bright is free from allergens.

Permitted according to EU Commission Regulation no. 2019/934. User must check compliance with national regulations.

Laboratory tested for purity and quality.

Dosage

Suspend the selected dosage in 10 times the amount of warm water and stir well. Slowly pour the suspension into the must or wine to be treated and separate afterwards.

Use	Dosage
Must or early fermentation	20 – 80 g/100L
Must treatment for impacted grapes	60 – 80 g/100L
Wine treatment	10 –60 g/100L

Storage

Store in a cool place. Packs, which have been opened should be tightly sealed and used as soon as possible.
